Leah,

Attached is an attachment with the latest sampling results for private residences surrounding the Chemours Washington Works facility. I'll make sure you are copied on our next call with Chemours.

Good Morning,

Attached is the PDF of the eight result letters mailed this morning. Six of these results were for wells with initial results between 50-70 ppt and that were offered additional quarters of sampling. Four of these six wells will get additional sampling and two of the six wells had their last additional quarter of sampling and those two wells are not qualified for treatment. The other two results are for wells newly sampled and that are qualified for an offer of treatment. Thanks.

Kathy
